

## Product

IN ALPHA

# Emerge Insights

## Easy data collection.

Seamlessly pull in tender and shipment data from any TMS/ERP—via real-time integration or scheduled exports.

## Visualize progress.

Quickly surface KPIs across lanes, carriers, and facilities with powerful filtering and flexible drill-downs.

## Actually execute.

Unlike other tools, you can actually take action directly in-app. Generating an RPF with the right carrier selection is just a click of a button.
