Emerge

Spot Procurement

Instant impact with spot quote execution

Quoting spot freight can be chaotic. Emerge simplifies the process with AI powered tools for benchmarking, real-time visibility, and superior operational control. Customize access to automation by defining your own automation rules, maintaining control while streamlining your transportation procurement.

- Compare spot quotes with Rate Pulse for accurate market-based benchmarks
- Access detailed pricing and carrier options
- Use competitive rates for cost efficiency
- Book carriers instantly with customized preferences
- Track shipments in real-time with Project 44

Quicker, easier, smarter spot quotes

Execute, manage, and book spot quotes all in one place. No more guesswork— instantly compare competitive rates, book with confidence, and gain full visibility into every shipment. Use our Dynamic Book It Now feature to secure the best market rates, and customize your carrier preferences for reliable, efficient shipping operations. Access our Marketplace of 45,000+ vetted carriers to effortlessly meet capacity needs and ensure optimal coverage for every shipment.

Streamlined quote execution — Real-time tracking — Enhanced visbility

Dynamic-Book-It-Now — Customization — Automations

Transactional reports — Benchmarking data — Competitive spot rates
